

KELSEY-HIGHLANDS NURSERY

East Boxford, Massachusetts

NURSERYMEN SINCE 1885

CAUTION!

Most losses are caused by careless planting or lack of aftercare.

- Never allow roots to dry out. If you can't plant at once bury the roots or ball of earth in a temporary location or keep in a cool shady place and keep moist.
- Plant only in good soil and dig hole 1 foot larger than ball or root spread. If soil is clay or sandy add peat or leaf mold. Don't use chemical fertilizer in contact with roots. Organic fertilizers are safer in all cases.
- Plant same depth as plants stood in nursery. Spread roots out naturally and work soil in around them. Remove burlap carefully from balled plants. Firm the soil around the roots or ball, adding more soil till hole is almost full.
- Fill hole with water repeatedly until all soil is well settled. Then add loose soil or cover with mulch.
- Water heavily once a week till well established. Water weekly during dry spells.

Kelsey's Guarantee

SIX MONTHS' GUARANTEE: We guarantee to furnish nursery stock in first class condition so that with proper aftercare, losses will be reduced to a minimum. Should any stock purchased at our retail prices fail to grow within six months, we will resupply; however, any labor incidental to planting replacements must be paid by the purchaser.

Should we not have the same plants in stock we reserve the right to give credit for the amount paid or supply other plants of equal value.

We will cheerfully resupply any plant found not true to name, or we will refund the amount paid for the same, but it is mutually understood that at no time shall we be held responsible for a greater sum than the purchase price.

Our guarantee is void on accounts not paid within thirty days after date of invoice.

The Salesground at Kelsey-Highlands Nursery

* Our modern salesground is equipped to give you the finest in plant materials and garden accessories. Located at our nursery, 1 mile west of the new U.S. Route 1 at Route 97, it is carefully planned to make shopping for your garden needs a real pleasure.

★ To further improve the condition of the wide variety of hardy plant materials always available in our salesground, we have built one of the largest shade houses in the country, covering more than 10,000 square feet. Here you can

shop in comfort even in the warmest weather.

* During the planting seasons an expert is always on hand to help with your

garden problems.

* Our free landscape advisory service makes it possible to landscape your home at lowest cost if you can do your own planting.

Kelsey's Horticultural and Landscape Service

The reputation of Harlan P. Kelsey, Inc., for fine landscape work is well established. During the current season we will undertake a limited number of landscape projects, to which we will apply the experience gained in over sixty-five years in our chosen field. Further information as to our horticultural and landscape service will be furnished gladly on request.

IMPORTANT

Please read the following before ordering:

Figures immediately following names indicate the approximate heights reached by the trees and shrubs under normal conditions, first under cultivation, and then in their natural habitats.

Hv. — Horticultural Variety; these do not come true from seed; they are either "polybrids" or selected "clons" of polybrids.

X — Hybrid; a cross between parents of different species or varieties.

B&B means plant is dug with ball of earth and burlapped.

New 10,000 square foot Shade House at Kelsey's

CONES OF FRASER FIR

Evergreens

Evergreens are beautiful in all seasons. In winter their rich heavy foliage give a feeling of warmth and brightness when other trees and shrubs are bare of leaves. Unsurpassed for hedges and windbreaks, they're also most useful as individual specimens and in mixed plantings as a foil for the flowering trees and shrubs.

Firs

ABIES concolor, White Fir, 60-120 ft.
A fine compact pyramidal evergreen; smooth bark and blue-green needles. 2-3 ft. B&B
ABIES fraseri, Fraser Balsam Fir, 35-60 ft.
Dark green, pyramidal. 3-4 ft. B&B
A ~ C DOD
4-5 II. B&B 12.00
ABIES koreana, Korean Fir, 40-50 ft.
One of the handsomest of all firs, with rich heavy lustrous foliage. Slow growing, therefor most useful for small gardens. Rare.
18-24 in. B&B 8.00
$2-2\frac{1}{2}$ ft. B&B
ABIES lasiocarpa arizonica, Corkbark Fir, 40-90 ft. Blue-green leaves and interesting corky bark, narrow pyramidal. 4-5 ft. B&B
5-6 ft. B&B
Falsecypress
CHAMAECYPARIS pisifera plumosa, Plume Sawara Falsecypress, 50-
100 ft.
Attractive feathery frondlike foliage.
2-3 ft. B&B 5.50
3-4 ft. B&B
4-5 ft. B&B 11.00

Junipers and Redcedar

Junipero una reaccau.
JUNIPERUS chinensis, Hv. PFITZER CHINESE JUNIPER, 4-6 ft.
Light green foliage, vigorous spreading growth eventually to 10 ft. across.
15-18 in. B&B
18-24 in. B&B
$2-2\frac{1}{2}$ ft. B&B
JUNIPERUS chinensis sargenti, Sargent Juniper, Prostrate.
Steel-blue foliage, making an excellent groundcover. Blue berries in fall.
15-18 in. spread, B&B 4.00
JUNIPERUS communis depressa, Oldfield Common Juniper, 2-4 ft.
Rarely exceeding four feet in height, and usually almost prostrate. This
fine hardy native evergreen is one of the most valuable for landscape
purposes. 18-24 in. spread B&B
JUNIPERUS communis suecica, Swedish Juniper, 6-10 ft.
Columnar form with bluish-green leaves.
12-15 in. B&B
15-18 in. B&B
JUNIPERUS horizontalis, Creeping Juniper
Prostrate, with long trailing branches, very hardy. Foliage green or
bluish-green.
15-18 in. spread B&B 4.00
18-24 in. spread B&B
JUNIPERUS horizontalis douglasi, Waukegan Creeping Juniper
Similar to above, but with bright steel-blue foliage.
15-18 in. spread B&B 4.00
JUNIPERUS horizontalis plumosa, Andorra Creeping Juniper
Not as prostrate, foliage green in summer, purplish in fall and winter.
15-18 in. spread B&B 4.00
JUNIPERUS squamata meyeri, Meyer Singleseed Juniper, 4-6 ft.
Striking blue color, with irregular ascending branches.
12-15 in. B&B
JUNIPERUS virginiana, Eastern Redcedar, 30-90 ft.
We offer the hardy columnar New England type, not to be confused with
southern forms.
6-8 ft. B&B
Spruces
The state of the s
PICEA abies, Norway Spruce, 90-150 ft.
Fast growing and vigorous; foliage dark green.
4-5 ft. B&B 8.00
5-6 ft. B&B
PICEA asperata, Dragon Spruce, 40-100 ft.
Introduced from China in 1910, this most vigorous of Spruces has proven-
to be one of our finest evergreens. Very hardy, standing more wind and
seashore exposure than any other evergreen we know of. Very compact.
2-2½ ft. B&B
2 2 /2 10. 1000

Spruces, continued

PICEA glauca, White Spruce, 60-120 ft.	
Fine northern species, useful for hedges, as a specimen or as a screen	1.
2-3 ft. B&B	5.00
3-4 ft. B&B	7.00
PICEA jezoensis, Yeddo Spruce, 50-75 ft.	
An excellent specimen, with interesting blue-green foliage.	00.00
	30.00 40.00
	40.00
PICEA omorika, Serbian Spruce, 60-100 ft. Considered by E. H. Wilson the finest Spruce for northern latitudes.	Nar-
row pyramidal. Conspicuous foliage, with leaves lustrous dark	
beneath and with broad bluish-white bands above.	0
7-8 ft. B&B	24.00
PICEA orientalis, Oriental Spruce, 60-100 ft.	
Graceful compact slow-growing tree, dark glossy foliage.	
2-3 ft. B&B	7.50
PICEA pungens, Colorado Spruce, 60-140 ft.	
A favorite Spruce for lawns. Very hardy, suitable for shore planting 3-4 ft. B&B	rg. 7.50
4-5 ft. B&B	10.00
PICEA pungens glauca, Blue Colorado Spruce, 60-140 ft.	10.00
The familiar and popular "Blue Spruce" seen everywhere.	
2-3 ft. B&B	7.50
3-4 ft. B&B	10.00
n·	
Pines	
PINUS koraiensis, Korean Pine, 40-100 ft.	
Of slow growth, this rare Pine has beautiful reddish-brown bark.	
8-10 ft. B&B	35.00
PINUS mugo mughus, Mugho Swissmountain Pine, 2-5 ft.	
Slow growing and compact. Fine for rock gardens, low hedge or who	erever
a compact evergreen of slow growth is needed. 12-15 in. spread B&B	3.75
15-18 in. spread B&B	5.00
PINUS nigra, Austrian Pine, 80-150 ft.	
A vigorous Pine, with long green needles on stout spreading bra	nches.
Good for seashore.	
2-3 ft B&B	5.50
3-4 ft. B&B	8.00

Moving Large Specimen Trees. Our tree moving equipment is especially designed for safely transporting large Evergreen or Shade Trees up to almost 1 foot in diameter. We have many handsome specimens of Pine, Hemlock, Spruce, Fir and Shade Trees in wide variety from 10 to 30 feet in height. These are moved with large balls with little disturbance to the root systems, largely eliminating risks.

Pines, continued

PINUS peuce, Balkan Pine, 30-50 ft.
Dense, narrow pyramidal habit and slow growth. Not generally available.
8-10 ft B&B
10-12 ft. B&B 35.00
PINUS resinosa, RED PINE, 80-125 ft.
Stout spreading or sometimes pendulous branches, forming a broad pyram-
idal tree. Long rich green leaves.
5-6 ft. B&B
5-0 It. DCD
PINUS strobus, EASTERN WHITE PINE, 50-120 ft.
Of rapid growth, and picturesque in old age, this fine evergreen is the
glory of New England. Of all native American conifers, this is the finest.
4-5 ft. B&B 7.00
5-6 ft. B&B 9.50
6-7 ft. B&B 12.50
7-8 ft. B&B
8-10 ft. B&B 22.00
10-12 ft. B&B 30.00
PINUS strobus, Hv. Pyramidal Eastern White Pine, 50-75 ft.
PINUS STODUS, HV. FYRAMIDAL EASTERN WHITE TIME, 50 To It.
Rare form with ascending branches, forming a narrow pyramidal head.
12-17 10. 1001
PINUS sylvestris, Scots Pine, 50-75 ft.
A very ornamental Pine, with blue green needles and red or red-brown
bark. Unusually hardy.
2-3 ft. B&B 4.00
3-4 ft. B&B 6.00
4-5 ft. B&B 9.00
5-6 ft. B&B
PINUS thunbergi, JAPANESE BLACK PINE, 30-100 ft.
A Japanese species, with bright green needles. Picturesque in growth.
Fine for seashore. Sometimes injured in severe winters north of Boston.
2-3 ft. B&B 6.00
3-4 ft. B&B 8.00
Douglasfir
Douglasja
PSEUDOTSUGA taxifolia, Douglasfir, 50-200 ft.
A pyramidal tree of dense, yet graceful habit. Very hardy. Foliage green
1.4
or bluish-green. 2-3 ft. B&B
0 1 10, 202
4-5 ft. B&B
5-6 ft. B&B
6-8 ft. B&B

TSUGA caroliniana, CAROLINA HEMLOCK, 40-75 ft.

TSUCA canadensis, CANADA HEMLOCK, 50-100 ft.

Introduced to cultivation by Harlan P. Kelsey. Prof. Sargent considered this "The handsomest conifer we can grow in New England." Unique in habit with dark, dense tufted foliage on sweeping pendulous branches.

2-3 ft. B&B 6.50

Broadleaf Evergreens

Aristocrats of the Garden

No ornamentals have become more deservedly popular than the Broadleaf Evergreens. Their beauty of flower and foliage promises added possibilities in the landscaping of your grounds.

Mass plantings of Rhododendrons, Mountainlaurel and Pieris, with "filler" or "edging" plants, such as Leucothoe, Heather, Rose Daphne and Sandmyrtle, are very desirable and probably show there Broadleaf Evergreens at their best. Such ground covers as Bearberry, Canby Pachistima and Japanese Pachysandra carpet the shady places luxuriantly.

To successfully grow these beautiful Broadleaf Evergreens, see that the soil is peaty, acid and well drained. Use a permanent mulch of Oak or other hardwood leaves (except Maple). A northern exposure is desirable, otherwise overhead leafy shade is essential. Ferns are at home in the Rhododendron bed and edgings of them or of Violets, Dicentras and a host of beautiful low ground covers give variety and beauty. Azaleas and Berrybearing Shrubs may be used freely in the planting with charming effects. We gladly aid customers in making up satisfactory combinations of "fillers" and other plant material for any proposed Rhododendron or Broadleaf planting.

Bearberry

ARCTOSTAPHYLOS uvaursi, Bearberry.

One of the finest groundcovers for sun or shade, good soil or poor. Prostrate, with pink or white flowers in June and bright red fruit in July-September. Buy only pot grown plants.

Box

BUXUS microphylla koreana, Korean Littleleaf Box, 1-2 ft.

Upright growth with bright green leaves. Very hardy, needing no winter protection here.

BUXUS sempervirens, Hv. TRUEDWARF COMMON Box, 2-21/2 ft.

Industrial and Institutional Landscaping is a specialty at Kelsey-Highlands

Nursery. For further information see Pages 32-33.

Heather

All varieties of heather are evergreen. In general they rarely exceed two feet in height, and are valuable for ground-cover in sunny locations and poor soils. Occasional shearing helps to keep them compact. All flower in late summer and early fall, all are pot grown.

3-6	in.	 .90	8.00 per 10
6-9	in	1.25	11.00 per 10

- CALLUNA vulgaris, Scotch Heather, 2-3 ft. Reddish-purple flowers.
- CALLUNA vulgaris alba, White Scotch Heather, 1½-2 ft. White flowers.
- CALLUNA vulgaris, Hv. Alport Heather, 2 ft. Crimson, very fine.
- CALLUNA vulgaris, Hv. Cuprea, 1½ ft. Pink flowers and bronze foliage.
- CALLUNA vulgaris, Hv. Hammond, 2 ft. White flowers, bright green leaves, strong grower.
- CALLUNA vulgaris, Hv. Hirsuta, 1½ ft. Purple flowers.
- CALLUNA vulgaris, Hv. Moss (nana), 6-9 in. Pink flowers, very dwarf habit, a shy bloomer.
- CALLUNA vulgaris, Hv. Multiplex, 1 ft. Double pink flowers, choice.
- CALLUNA vulgaris, Hv. Rubra, 1 ft. Red, very fine.
- CALLUNA vulgaris, Hv. Searle, 1½ ft. White, late flowering, open growth.
- CALLUNA vulgaris, Hv. Silky (pilosa), 1 ft. White flowers, gray-green foliage.
- CALLUNA vulgaris, Hv. Tall (elata), 1½ ft. White flowers.
- CALLUNA vulgaris, Hv. Tennella, 1 ft. Lavender flowers.

Leatherleaf

Rose Daphne
DAPHNE cneorum, Rose Daphne, 9-12 in.
Especially fragrant rosy-pink flowers profusely borne in May-June.
Lighter bloom in fall. This low evergreen shrub is deservedly popular.
6-9 in. spread 2.00
9-12 in. spread 2.75
Heath
ERICA carnea, Spring Heath, 1 ft.
An enchanting low evergreen shrub, with rosy-red flowers in earliest spring.
Bright green needle-like foliage.
3-6 in 1.25
6-9 in
Euonymus
EUONYMUS fortunei coloratus, Purpleleaf Wintercreeper Euonymus.
An excellent groundcover. Leaves purplish-red in fall and all winter.
2 yr 1.00
EUONYMUS fortunei minimus, BABY WINTERCREEPER EUONYMUS.
Very slow growing, with tiny evergreen leaves.
2 yr
EUONYMUS fortunei radicans, Common Wintercreeper Euonymus.
Can be used as a low shrub or climbing vine.
2 yr
Attractive upright growing form, excellent for low hedge.
2 yr 1.25
EUONYMUS fortunei vegetus, Bigleaf Wintercreeper Euonymus.
More vigorous than preceding, with larger leaves.
2 yr 1.00
Galax
GALAX aphylla, GALAX.
A very lovely little evergreen herb with delicate white flower spikes up
to two feet or more in May. The beautiful heart-shaped leaves are glossy
green, turning brilliant scarlet in autumn when exposed to the sun. A fine
groundcover plant for Rhododendrons, Azaleas, etc.
Strong plants
Halla
Holly
ILEX crenata, Hv. Convexleaf Japanese Holly, 4-5 ft.
A fine shrub holly, excellent for low plantings or hedges. Although these
have been grown from seed, they are very close to the parent in character. 15-18 in B&B
19 10 m. Dwb
ILEX glabra, INKBERRY, 4-6 ft.
Hardy evergreen shrub holly, with glossy green leaves and black fruit.
Fine in the ericaceous border, and in foundation plantings. 12-15 in. B&B
12-15 in. B&B
We have a fine booklet full of helpful planting instructions. Ask for your free
copy. It will be sent promptly.

MOUNTAINLAUREL KALMIA

Kalmia

KALMIA angustitolia, Lambkill Kalmia, 2-4 ft.
This small evergreen shrub has clusters of lavender-rose to crimson flowers
in June-July. Prefers a peaty soil.
9-12 in. collected
KALMIA latifolia, Mountainlaurel, 6-25 ft.
In May or June this choice native evergreen shrub presents a gorgeous
spectacle, with its white or blush-pink clustered flowers. A fine companion
for Rhododendrons and Azaleas.
15-18 in. B&B 4.50
18-24 in. B&B 6.00
Sandmyrtle
LEIOPHYLLUM buxifolium prostratum, Allegany Sandmyrtle, 5-9 in.
A tiny dwarf evergreen gem, with miniature clusters of starlike flowers in
May. Found high in the Southern Appalachian Mountains, it is entirely
hardy. A rock garden is a natural home for this little treasure.
6-9 in. spread 1.75
Leucothoe
LEUCOTHOE catesbaei, Drooping Leucothoe, 4-6 ft.
Glossy green foliage and white flower clusters in April or May on arching
branches. Best in partial shade. The graceful curving branches are of
unique value as a background for flower arrangements.
15-18 in. B&B 4.00
Partridgeberry
MITCHELLA repens, Partridgeberry, 3-4 in.
White flowers in June or July, scarlet fruit in September. Fine little native
evergreen groundcover for shady or semi-shady locations.
6-9 in
(8.00 per 10)

Pachistima

PACHISTIMA canbyi, Canby Pachistima, 9 in.
Dwarf evergreen shrub associally valuable as a bandar as many line
Dwarf evergreen shrub, especially valuable as a border or groundcover
plant in half-shady or open locations. A native of mountain regions in Virginia and West Virginia.
4-6 in
(9.00 per 10)
6-9 in
(11.00 per 10)
Pachysandra Pachysandra
PACHYSANDRA terminalis, Japanese Pachysandra, 7 in.
A fine hardy evergreen groundcover plant, best in light shade.
Pot grown
(2.50 per 10; 20.00 per 100)
Pieris (Andromeda)
PIERIS floribunda, Mountain Pieris, 3-6 ft.
Showy white flowers in April or early May, on a spreading evergreen
shrub. Very hardy and dependable.
15-18 in. spread, B&B 5.00
PIERIS japonica, Japanese Pieris, 5-9 ft.
More upright than preceding, with showy white flowers in late April or
early May. Thick shiny leaves, turning bronze in winter.
12-15 in. B&B 4.00
Rhododendrons
RHODODENDRON carolinianum, Carolina Rhododendron, 4-8 ft.
Pink flowers in May-June. A hardy American species introduced by
Harlan P. Kelsey many years ago. Blooms profusely when still a small
plant.
15-18 in. B&B 5.00
18-24 in. B&B 7.00
RHODODENDRON carolinianum album, White Carolina Rhododen-
DRON, 4-8 ft.
Also introduced by Harlan P. Kelsey, this white form is especially attrac-
tive when planted with the pink.
15-18 in. B&B 5.00
RHODODENDRON catawbiense, CATAWBA RHODODENDRON, 7-20 ft.
Bright red-purple flowers in May and June. Very hardy. Bright glossy
green leaves.
15-18 in. B&B 5.00
18-24 in. B&B 7.00
xRHODODENDRON lactivirens, Wilson Rhododendron, 4-5 ft.
A compact low shrub with rose-colored flowers in June or early July.
Glossy green leaves.
9-12 in. spread B&B 3.50

Rhododendrons, continued

RHODODENDRON maximum, Rosebay Rhododendron, 10-40 ft.
White or pink-tinged flowers in June or July. A fine hardy American
species.
$2-2\frac{1}{2}$ ft. B&B
RHODODENDRON mucronulatum, Korean Rhododendron, 5-7 ft.
A fine deciduous species, especially valuable for its very, early rose-colored
flowers in late March or early April.
18-24 in. B&B 5.00
xRHODODENDRON myrtifolium, Myrtle Rhododendron, 3-5 ft.
A compact rounded shrub with light green leaves and rosy-pink flowers.
9-12 in. B&B
12-15 in. B&B 6.00
Shortia
SHORTIA galacifolia, Oconeebells, 6-9 in.
Beautiful low native evergreen, with small galax-shaped leaves, and lovely
white bell-shaped flowers in earliest spring.
Clumps
Cowberry
VACCINIUM vitisidaea majus, Shore Cowberry, 6-12 in.
Low evergreen shrub, with white or pinkish flowers in May and dark red
fruit in August-October. Fine as a groundcover, or for the rock garden.
3-6 in spread
VACCINIUM vitisidaea minus, Mountain Cowberry, 4-6 in.
Even more dwarf, forming dense evergreen mat. Flowers deeper color,
sometimes red.
3-6 in. spread
Description (Manuala)
Periwinkle (Myrtle)
VINCA minor, Common Periwinkle.
Popular trailing evergreen vine with attractive lilac-blue flowers in April
with scattered blooms appearing through the summer. A dependable
groundcover plant.
Pot grown
(3.50 per 10; 30.00 per 100)
VINCA minor, Hv. Bowles Variety.
Strong growing form with bright blue flowers. Pot grown
(5.50 per 10: 50.00 per 100)

In the flowering shrubs are found a wide variation in habit of growth, flower size and color, foliage and season of bloom. Many mear fruit that is attractive to birds. We will gladly help you in preparing a list of the most desirable shrubs for different purposes. See Pages 23-35.

Deciduous Shade and Flowering Trees

Maples

ACER platanoides, Norway Maple, 80-100 ft.
A fine shade or street tree. Yellow-green flowers in spring, bright green
leaves turning yellow in fall.
8-10 ft
ACER platanoides columnare, Columnar Norway Maple, 60-80 ft.
A very fine columnar form, with upright branches.
4-5 ft
5-6 ft
ACER platanoides, Hv. Crimson King (schwedleri nigra), 60-90 ft. A famous recent introduction, with deep purplish-red foliage throughout entire spring and summer. Plant Patent No. 735.
7-8 ft. whips
ACER platanoides, Hv. Fassaens Black, 60-90 ft. Similar to above, with fine purplish-red foliage from spring to fall.
5-6 ft
6-7 ft
ACER rubrum, Red Maple, 60-120 ft.
Red flowers in early spring, brilliant red autumn coloring. One of the finest ornamental trees.
8-10 ft
10-12 ft
ACER saccharum, Sugar Maple, 60-120 ft.
Light greenish yellow flowers in spring, leaves bright orange-scarlet and vellow in autumn.
8-10 ft
10-12 ft
Serviceberry (Shadblow)
AMELANCHIER laevis, Allegany Serviceberry, 20-30 ft. A fine small tree, flowers pure white, young leaves purplish-red. Highly ornamental.
3-4 ft
AMELANCHIER oblongifolia, THICKET SERVICEBERRY, 10-18 ft. Makes a dense clump, with white flowers in May, sweet black fruit in June. Fine for birds.
3-4 ft
4-5 ft

Write for your copy of Kelsey's free "How to Plant" manual. It will give you

a wealth of valuable planting information.

Birches

BETULA papyrifera, Paper Birch, 60-100 ft.
This noble tree, the canoe birch of the Indians, is indispensable to the
landscape designer.
6-8 ft. B&B 7.00
8-10 ft. B&B
BETULA pendula (alba), EUROPEAN WHITE BIRCH, 50-75 ft.
Large tree with shining white bark.
6-8 ft. B&B
8-10 ft. B&B
BETULA pendula gracilis, Hv. Cutleaf Birch, 50-75 ft.
A universal favorite, with graceful weeping branches, and the white bark
characteristic of the species.
4-5 ft. B&B
BETULA populifolia, Gray Birch, 30-60 ft.
A friendly tree of open woods and pastures.
6-8 ft. B&B 6.00
8-10 ft. B&B 8.50
10-12 ft. B&B
Chestnut
CASTANEA mollissima, Chinese Chestnut, 30-60 ft.
Shrub or tree, with sweet edible nuts. Blight resistant.
3-4 ft
Yellowwood
CLADRASTIS lutea, American Yellowwood, 30-50 ft.
A splendid ornamental tree, with fragrant white flowers in June, and gay
yellow autumn color.
3-4 ft
TO T
Dogwoods
CORNUS florida, Flowering Dogwood, 20-70 ft.
This noblest of native flowering trees is a universal favorite. The showy
white flower bracts make it a gorgeous sight in May, and scarlet fruit as
well as brilliant red leaves make it one of autumn's showiest plants. See
picture on Page 59.
3-4 ft. B&B
4-5 ft. B&B
5-6 ft. B&B
CORNUS florida rubra, Redflowering Dogwood, 20-50 ft.
Pink-flowering variety. Splendid when planted to contrast with white. 3-4 ft. B&B
4-5 ft. B&B
5-6 ft. B&B
CORNUS kousa chinensis, Chinese Dogwood.
Flowering in mid-June, this fine Chinese species prolongs the dogwood
season, with large pointed white flower bracts followed by red raspberry-
like fruits.
18-24 in 3.00

Hawthorns

Hawthorns
CRATAEGUS arnoldiana, Arnold Hawthorn, 15-20 ft.
Small ornamental tree forming a broad irregular crown. Large white
flowers in early May, and large scarlet or crimson fruit in August-September.
4-5 ft. B&B
CRATAEGUS crusgalli, Cockspur Hawthorn, 20-30 ft.
Attractive in bloom, with white flowers in May or June. Bright red fruit in fall and winter. Leaves turn to orange and scarlet in fall. Numerous slender thorns make it useful where an impenetrable hedge is desired.
2-3 ft. B&B
CRATAEGUS oxyacantha, Hv. Pauls Scarlet Hawthorn, 15-25 ft. One of the most brilliant small flowering trees, with double bright scarlet flowers in late May.
5-6 ft. B&B
6-8 ft. B&B
8-10 ft. B&B
CRATAEGUS phaenopyrum, Washington Hawthorn, 20-30 ft.
One of the very best Hawthorns, with profuse white flowers in May-June,
and lustrous scarlet fruit in September-October.
2-3 ft. B&B 3.00
5-6 ft. B&B
Russianolive
ELAEAGNUS angustifolia, Russianolive, 15-20 ft. A rugged small tree, with silvery-yellow flowers in early June and yellow-coated berries with silvery scales in early fall. Chiefly valued for its gray foliage and interesting bark in winter. 4-5 ft
Evodia
EVODIA danielli, Korean Evodia, 20-25 ft.
Of interest for its large clusters of small white flowers in August.
3-4 ft 5.00 EVODIA hupehensis, Hupeh Evodia, 20-25 ft.
Pinkish flowers, in a pyramidal cluster nearly 6 inches across, in late summer. Rare.
3-4 ft
Beech
FAGUS sylvatica, European Beech, 80-100 ft. This magnificent tree makes a noble lawn specimen, with glossy dark green leaves. Smooth gray bark. 6-8 ft. B&B
Our salesground at East Boxford is a pleasant place to visit. An expert is always on hand during planting season to help with your planting problems. Do pay us an early visit.

Honeylocust

Honeytocust
GLEDITSIA triacanthos, Common Honeylocust, 90-125 ft.
A fine shade tree, excellent for city conditions.
5-6 ft
6-8 ft
GLEDITSIA triacanthos, Hv. Moraine Locust, 50-75 ft.
A very desirable new tree. No thorns and no unsightly seed pods. Plant
Patent No. 836.
7-8 ft
GLEDITSIA triacanthos, Hv. Thornless Honeylocust (inermis), 50-75 ft.
Slender fast-growing tree with small leaflets and fragrant pea-like flowers
in June. Long conspicuous pods. Good for seashore.
5-6 ft
6-8 ft
<i>Coffeetree</i>
GYMNOCLADUS dioicus, Kentucky Coffeetree, 60-90 ft.
An ornamental tree with large foliage, pink when unfolding and clear
vellow in autumn. Greenish-white flowers and conspicuous brown pods
persisting during the winter.
3-4 ft
Silverbell
HALESIA monticola, Mountain Silverbell, 30-100 ft.
White pendulous bell-shaped flowers in May (rarely pinkish) give this
native tree unusual appeal. Attractive striped bark when young, scaly
later. Another fine Kelsey introduction.
2-3 ft
3-4 ft
1107 1 -
Walnut
JUGLANS nigra, Eastern Black Walnut, 75-100 ft.
A tall tree with deeply furrowed bark and handsome dark green foliage.
5-6 ft
6-7 ft
Laburnum (Goldenchain)
xLABURNUM watereri, Waterer Larurnum, 12-20 ft.
Beautiful small tree, with showy pendulous racemes of golden yellow
flowers in May or early June.
6-8 ft
8-10 ft
Larch
LARIX leptolepis, Japanese Larch, 70-90 ft.
The best of the larches. Fast growing. This conifer drops its needles in
winter.
5-6 ft. B&B 8.00

Flowering Crabapples

MALUS, Hv. Almey Crabapple, 20-25 ft.
Brightest red of all, with brilliant red fruit as well.
6-7 ft
xMALUS atrosanguinea, Carmine Crabapple, 15-20 ft.
The brilliant carmine flowers in May make this one of the most popular
flowering trees, grows as broad as tall. Small red fruit in fall. A great
attraction for birds.
5-6 ft
MALUS floribunda, Japanese Flowering Crabapple, 20-30 ft.
In early May this tree is covered with flowers. The buds are rich carmine,
the full-blown flower white or blush. One of the very best crabapples, most
attractive to birds, especially pheasants, robins and cedar-waxwings.
5-6 ft
6-7 ft
xMALUS, Hv. Hopa Crabapple (M. baccata x M. pumila neidzwetzkiana),
12-20 ft.
A remarkable tree covered with rose-red flowers in May. The handsome
fruit is red inside and out. Very hardy.
$oldsymbol{v}$
7-8 ft
MALUS hupehensis, Tea Crabapple, 20-25 ft.
Deep pink buds, fragrant pink flowers. One of the best.
3-4 ft
4-5 ft
xMALUS micromalus, Midget Crabapple, 15-20 ft.
A handsome small tree of upright habit, deservedly popular for its fine
pink flowers. Bright yellow fruit September-October.
9 r to 1111111111111111111111111111111111
xMALUS purpurea, Hv. Eley Crabapple, 15-25 ft.
Vinous-red flowers in May, and handsome purple fruit.
5-6 ft
6-7 ft
MALUS purpurea lemoinei, Lemoine Purple Crabapple, 20-25 ft.
The darkest flowers of any ornamental crabapple. Deep purplish-red, in
early May. 4-5 ft
xMALUS, Hv. Red Silver, 25-30 ft.
Dark reddish-green foliage, China-rose flowers in early May, purplish-red
fruit in September.
5-6 ft 6.00
xMALUS robusta, CHERRY CRABAPPLE, 20-30 ft.
Large white flowers in May followed by fine red fruit. One of the larger
growing Crabapples.
7-8 ft
8-10 ft
xMALUS scheideckeri, Scheidecker Crabapple, 15-20 ft.
XMALUS scheldeckeri, Schelbecker Crabatter, 10 20 1t.
Double pale pink flowers in early May, one of the best. Upright habit.
3-4 ft 4.00

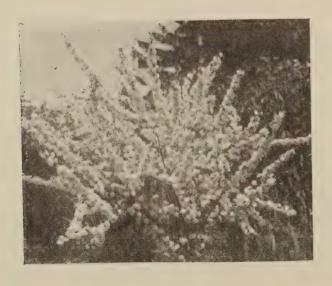

Dawn Redwood

Dawn Keawooa	
METASEQUOIA glyptostroboides, DAWN REDWOOD, 50-100 ft. Introduced in 1948, this much discussed survivor from an ancient er	a has
proven hardy with us so far, although we cannot tell what a really s	evere
winter will do to it. Upright, fast-growing and graceful.	
3-4 ft. <u>B&B</u>	9.00
4-5 ft. B&B	12.00
Mulberry	
MORUS alba tatarica, Russian Mulberry, 30-50 ft.	
Small tree with bushy head. The small red fruit is most attractive to l	oirds.
6-8 ft	7.00
Sourwood	
OXYDENDRUM arboreum, Sourwood, 15-60 ft.	
The mass of white flowers in late June, July and early August make one of our most valuable flowering trees. Brilliant scarlet foliagautumn.	e this ge in
3-4 ft	3.75
Poplars Poplars	
POPULUS alba, WHITE POPLAR, 70-90 ft.	
Fast growing, upper side of leaves grayish-green, lower side white.	
5-6 ft	3.00
6-8 ft	4.00
xPOPULUS canadensis eugenei, Carolina Poplar, 100-150 ft.	
Very fast growing and wide spreading tree.	
6-8 ft	4.00
8-10 ft	6.00
POPULUS nigra, Hv. Lombardy Poplar (italica), 40-60 ft.	
Fast growing, narrow, columnar tree.	2.00
8-10 ft	3.00
Flowering Plum and Cherry	
xPRUNUS cerasifera, Hv. Thundercloud, 20 ft.	
Pink flowers, purple foliage.	0.00
6-7 ft	8.00
• • • • • • • • • • • • • • • • • • • •	10.00
PRUNUS sargenti, SARGENT CHERRY, 50-75 ft.	. 7
Finest of all cherry trees, single pink flowers in early spring, rich	n red
autumn color.	0.00
4-5 ft	6.00
PRUNUS serrulata, Hv. Kwanzan, 20-25 ft.	1
The most popular of the double flowered oriental cherries. Deep	pink
flowers, $2\frac{1}{2}$ inches across, in May. 5-6 ft	7.50
6-7 ft	10.00
U"/ 10	10.00

Flowering Plum and Cherry, continued	
PRUNUS serrulata, Hv. Shirofugen, 20 ft.	
Double, light pink in bud, white when in full flower.	
5-6 ft	
PRUNUS serrulata, Hv. Shogetsu, 15 ft.	
Pale pink double flowers up to 2 inches across.	
5-6 ft	
PRUNUS triloba, Hv. Multiplex (plena), Flowering Plum, 20-30 ft.	
A favorite ornamental shrub or small tree, with double pink flowers in	
early spring. 3-4 ft	
9.2.20	
Oaks Oaks	
QUERCUS borealis, Northern Red Oak, 60-80 ft.	
Fine as shade tree or for lawn. Rapid growing. Leaves dark red in autumn. 10-12 ft	
QUERCUS palustris, Pin Oak, 75-125 ft.	
A symmetrical tree, with slender, spreading branches, the lower ones	
usually pendulous. The bright green leaves turn brilliant red in autumn. 6-8 ft	
OUERCUS robur, English Oak, 75-125 ft.	
A stately tree with short thick trunk and stout limbs forming an open	
broad head. Leaves stay green till late autumn. 6-8 ft	
0.010.	
Willows	
xSALIX blanda, Wisconsin Weeping Willow, 50 ft.	
Sometimes called the Niobe Willow, this fine tree has a wide spreading head and pendulous branches.	
5-6 ft 3.75	
6-7 ft	
SALIX matsudana (tortuosa), Hv. Contorted Hankow Willow, 30 ft. Very curious upright tree with twisted and contorted branches.	
5-6 ft	
SALIX pentandra, Laurel Willow, 50-60 ft.	
Compact growth, lustrous dark green foliage. 4-5 ft	
7-8 ft	
Mountainash	
SORBUS aucuparia, European Mountainash, 40-60 ft.	
White flowers in May, and bright red or orange-red clusters of fruit in August and September. This beautiful tree is attractive to birds.	
4-5 ft	
6-8 ft	

Tree Lilac

SYRINGA amurensis japonica, Japanese Tree Lilac, 20-30 ft.
Large pyramidal heads of white flowers in mid-June, after other Lilacs
are through flowering. Very hardy. 2-3 ft
3-4 ft
Linden
TILIA cordata, Littleleaf Linden, 60-90 ft.
One of the very finest shade and avenue trees, the "Bee Tree" of Europe. Fragrant yellowish-white flowers in July.
6-8 ft
8-10 ft
$m{Elms}$
ULMUS americana, American Elm, 60-120 ft.
One of our noblest ornamental trees, of graceful habit when young, and
wide spreading in old age.
12-14 ft. $2-2\frac{1}{2}$ in. cal
$16-18$ ft. $3-3\frac{1}{2}$ in. cal
ULMUS pumila, Siberian Elm, 40-50 ft.
Popular fast growing tree, often erroneously called Chinese Elm (which
name properly belongs to Ulmus parvifolia).
6-7 ft

Double Pink ALMOND CHERRY

HEDGES, WINDBREAKS AND SCREENS. The growing of fine material for evergreen and deciduous hedges, windbreaks and screens is a specialty at Kelsey-Highlands Nursery. For protection from harsh winds, for masking unsightly views and to insure privacy the larger screens are often invaluable. Lower hedges and borders are pleasing essentials in many garden designs. We will gladly submit recommendations and quotations for individual problems. A far wider list is available for these uses than is generally supposed.

1956 "PLANT AMERICA" AWARD

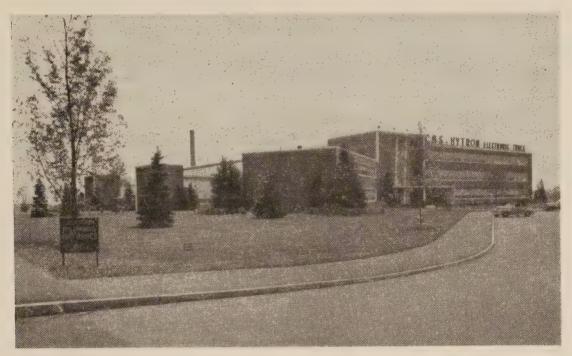

NORTHEASTERN UNIVERSITY, Boston, Massachusetts

This planting, designed and installed by Kelsey-Highlands Nursery won a "Plant America" award in national competition as an outstanding example of institutional landscaping, one of only two in the country to be so honored.

We have also carried out extensive plantings recently for the following:
★ Massachusetts Institute of Technology
★ Gould AcademyBethel, Maine
★ Phillips Exeter Academy Exeter, N. H.
★ Middlesex Mutual Building TrustWaltham, Mass.
* A. C. Lawrence Leather Company, Tannery South Paris, Maine
* Maria Hastings SchoolLexington, Mass.
* Haverhill Park Department
★ Essex Trust Company, branch bankEast Lynn, Mass.
★ First National Supermarket
* Fanny Farmer "Candy Fair"
★ Westminster Village MotelWestminster, Mass.
* Boston Edison Company, substationBrookline, Mass.
* Sylvania Electric Products Corp Loring Ave., Salem, Mass. (This planting recently received a special award from the Massachusetts Horticultural Society)
And many others.

1955 "PLANT AMERICA" AWARD

C.B.S. HYTRON, Danvers, Massachusetts

Designed and installed by Kelsey-Highlands Nursery, this planting won a national "Plant America" award in 1955. Also a certificate from the Massachusetts Horticultural Society for excellence in industrial landscaping.

Industrial, Institutional and Public Landscaping

A specialty at Kelsey-Highlands Nursery

Good landscaping is good business. Manufacturers and business men in all lines have found that beautiful surroundings increase worker efficiency, reduce employee turnover, and make for better relations between labor, management and the community at large.

At educational institutions, offices, service establishments and at all levels of government is found each year greater recognition of the unique contribution of good landscaping to the American way of life.

We are proud of the part we have played in this movement, which has been greatly stimulated by the "Plant America" program of the American Association of Nurserymen.

PLANTINGS FOR BIRDS. Birds add beauty and song to the gardens, and are of greatest value in curbing insect damage. Every garden should include plants that provide natural bird food and cover. We know what these plants are and will gladly help you plan their proper use. Birds are a constant joy and entertainment in the garden—a bird-feeding station in a corner of your garden dedicated to bird life will be a continuing delight. See Page 51 for Berry Bearing Plants.

Vines

WISTARIA sinensis, CHINESE WISTARIA Long drooping culsters of blue-purple flowers in May and early . An old favorite, deservedly popular. Strong grafted plants	June. 2.50
WISTARIA sinensis alba, White Chinese Wistaria Same as above, but with pure white flowers. Strong grafted plants	

Important:

Most vines are heavy feeders, and need plenty of nourishment to do well. Many times complete failure or unsatisfactory result follow planting in too small holes in poor soil.

We recommend digging a hole at least one foot across and fifteen or more inches deep. Place two or three inches of well rotted manure in the bottom of the hole and fill with rich loam.

Vines planted in a hole thus prepared will reward you with vigorous growth.

You can depend on hardy New England grown nursery stock. A visit to Kelsey-Highlands Nursery is a regular event for many garden lovers. Garden clubs and student groups are always welcome, and special programs will be arranged when desired.

Write for your free copy of Kelsey's "How to Plant" manual. It will give you a wealth of practical planting information.

Fruit Trees

We offer here a careful selection of finest varieties for New England gardens. Most of them are not only productive but highly ornamental as well.

NOTE: FRUIT TREES ARE NOT COVERED BY OUR GUARANTEE.

APPLES, Standard

2 vr. 1.75 each

Baldwin — Bright red, crisp, winter apple.

CORTLAND — Bright red, spicier than McIntosh. Oct.

Gravenstein — Red and yellow striped. Oct.

McIntosh Red — The favorite autumn apple. Oct.

NORTHERN Spy — Large red and yellow. Keeps well. Nov.

RED ASTRACHAN — Large round red. Aug. Yellow Delicious — Finest yellow apple.

APPLES, Dwarf

2 yr. 3.00 each

Baldwin — Bright red, winter.

CORTLAND — Red. Oct. Delicious — Large red, autumn.

McIntosh — The favorite.

NORTHERN SPY — Red and yellow.

APPLE, 5-in-1

2 yr. 4.00 each

Five distinctive varieties on one tree.

YELLOW DELICIOUS, RED ROME BEAUTY, CORTLAND,

McIntosh Red, Lodi.

CRABAPPLE

4 yr. 3.50 each

Hyslop — Dark crimson.

CHERRIES, Standard

2 yr. 2.50 each

BLACK TATARIAN — Best sweet cherry, dark purple.

Montmorency — Red. Best sour for pies.

Napolean — Pale yellow with red cheek.

WINDSOR — Almost black skin, pink flesh.

PEARS, Standard

2 yr. 2.00 each

Bartlett — Yellow, red blush. August.

CLAPPS FAVORITE - Large, lemon yellow. Aug.

Seckel — Sweet small russet-brown. Oct.

PEARS, Dwarf

2 yr. 2.50 each

BARTLETT

CLAPPS FAVORITE

SECKEL

PEACHES

2 yr. 1.75 each

Elberta — Popular yellow freestone. Sept.

Golden Jubilee — Golden freestone. Late Aug.

VEDETTE — Yellow flesh freestone. Late Aug.

VETERAN — Large, yellow flesh freestone. Early Sept.

PEACH, Dwarf

 $2\frac{1}{2}$ -3 ft. 3.25 each

GOLDEN JUBILEE — The first dwarf peach.

FRUIT TREES AND SMALL FRUITS

PLUMS, Standard

2 vr. 2.00 each

ABUNDANCE — Light yellow, fine flavor. Aug.

Burbank — Dark violet-red, large. Aug.

Shropshire Damson — Blue, heavy bearer. Aug.

PLUM, Shrub

2-3 ft. 2.25 each

Beach Plum — Famous in New England for jam and jelly making.

QUINCE

2 yr. 2.00 each

Orange — A large yellow very productive quince. Makes superb jelly.

BLUEBERRIES, Named varieties

18-24 in. potted 1.75 each

15.00 per 10

Use two or more varieties to assure cross pollination for best results.

Dixi — Large berry, very popular. Midseason.

Jersey — Good producer, large. Late.

RANCOCAS — Tall, vigorous, productive. Midseason.

Scammell — Good grower, large berries. Late.

STANLEY — Very productive, tall. Late midseason.

Weymouth — Fine heavy-bearing variety. Early.

GRAPEVINES

2 vr. .75 each Potted 1.25 each

Brighton — One of best reds, tender and juicy.

GOLDEN MUSCAT — Golden yellow, late.

Caco — Very fine amber-red.

Concord — Popular deep blue. Late. Fredonia — Earliest blue-black, very fine.

PORTLAND — Best early white.

Seneca — Large white, sweet, juicy. Early.

A fine naturalistic rock garden planting designed and planted by Harlan P. Kelsey, Inc.

See special list of rock garden plants on Page 54.

Garden Roses

Floribunda Roses

Hardier and of more vigorous habit than Hybrid Teas. When established they seldom need replacing for a long period of years. The flowers are carried in thick clusters and bloom profusely the entire season.

DONALD PRIOR (Patent No. 377)

Semi-double blooms of deep glowing red. 2.00 each.

FASHION (Patent No. 789)

Entirely new colors in Roses—luminous coral suffused with gold. Greatest award winner of all times. 2.50 each.

GLACIER (Patent No. 1025)

Large white flowers in clusters. 2.75 each.

GOLDILOCKS (Patent No. 672)

Rich, golden-yellow flowers, cupped in early stages. Up to $3\frac{1}{2}$ in. across. 2.00 each.

PINOCCHIO (Patent No. 484)

Buds rich salmon flushed with gold at base, gradually changing to soft clear pink as the flowers open. Blooms in great clusters and flowers are like small Hybrid Tea roses. $1\frac{1}{2}$ in. across. 2.00 each.

RED PINOCCHIO (Patent No. 812)

Rich scarlet blooms $3\frac{1}{2}$ in. across borne in clusters. Bushy upright growth and free flowering. Wildrose fragrance. 2.00 each.

SUMMER SNOW (Patent No. 416)

Clusters of pure white, dainty flowers $3\frac{1}{2}$ in. across. Very outstanding in the garden. 2.00 each.

VOGUE (Patent No. 926)

Immense clusters of brilliant cherry-red flowers. 2.50 each.

Note: Prices are for potted plants.

Climbing Roses

Potted Plants — 1.75 each

BLAZE

Bright scarlet-red flowers of large size borne freely on strong stems. Often a recurrent bloomer.

CITY OF YORK

A new white climber, semi-double with golden-yellow center.

NEW DAWN

Recurrent blooming all season. Large blush or shell-pink flowers.

PAULS SCARLET CLIMBER

The favorite of all time; bright red flowers in profusion.

PRIMROSE

Hardy climber with attractive canary-yellow flowers.

Note: Many roses require special treatment and winter protection. Having no control over these, we cannot guarantee or be responsible for any roses sold.

1955 "Plant America" award to Kelsey-Highlands Nursery See Pages 32 and 33 for details of this and other awards.

Hybrid Tea Roses

CAPISTRANO (Patent No. 922)

Glowing rose-pink blooms produced on vigorously sturdy plants. Holds its color without fading. 2.75 each.

ECLIPSE (Patent No. 172)

Distinctive tapering buds of yellow. Abundant bloomer. One of the best all-purpose yellow Roses. 2.25 each.

FORTY NINER (Patent No. 792)

A bicolor, with outside of petals chrome-vellow and inside vivid orientalred changing to cherry-red as it ages. 3.00 each.

FRAU KARL DRUSCHKI

One of the very best of the pure white varieties. 1.75 each.

NEW YORKER (Patent No. 823)

An enormous clear, sparkling, red rose that holds its color. Buds darker in color than the open blooms. Very exceptional. 2.50 each.

PEACE (Patent No. 591)

Oval buds golden-yellow etched with pink. As they open, the color changes from canary-yellow, to pale golden, to iridescent cream. Flowers are 5 in. across. 3.00 each.

Note: Prices are for potted plants.

Hardy Garden and Wild Flowers

In this list will be found a collection of hardy herbaceous perennials that will give a good succession of bloom from early Spring until late Autumn. Nearly all are of easy culture. The usual list of herbaceous perennials offered in American catalogs can be secured and shipped with our stock, so that customers may feel safe in ordering and getting full collections, even if not priced below.

Approximate height variety attains is given after the name.

ACONITUM fischeri, AZURE MONKSHOOD, 2 ft.

Dark blue flowers, September and October, .75 each, 3 for 2.00

AJUGA reptans, Blue Carpet Bugle, 6-8 in.

Blue spikes in May-June. A fine groundcover for sun or shade.

A. reptans alba, White Carpet Bugle, 6-8 in. Similar to above, but with white flowers.

ALTHEA rosea, Hollyhocks, 3 ft.

Semi-double, mixed colors

ALTHEA rosea, Hv. Chaters Double, 3 ft.

Mixed colors.

ALYSSUM saxatile compactum. DWARF GOLDENTUFT, 12 in.

Bright yellow flowers in early spring. Fine for rock garden.

AQUILEGIA canadensis, American Columbine, 2 ft.

Scarlet and yellow flowers in May. A grand native species.

xA. Mrs. Scott Elliott's Longspurred Hybrids, 2-2½ ft.

Long-spurred flowers in various colors.

AQUILEGIA, Hv. Snowqueen, 2 ft.

Lovely snow-white flowers.

ARABIS alpina, Hv. Double Alpine Rockcress, 8 in.

Double white flowers in April and May.

ASARUM canadense, Canada Wildginger, 9 in.

Brownish-purple flowers in May, heart-shaped leaves. Likes a moist location.

ASARUM shuttleworthi, Mottled Wildginger, 9 in.

Similar to above, but with curiously mottled leaves.

ASTER, HARDY HORTICULTURAL VARIETIES

Blue Plume, 2-3 ft. Blue, August-September

CHARLES WILSON, 3 ft. Ruby-red, September.

HARRINGTON PINK, 3 ft. Clear pink, semi-double, mid-September.

Mt. Everest, 2-3 ft. The best tall white.

X Marjorie, 12 in. Rose-pink, September.

X Snowsprite, 10 in. White, September.

X VICTOR, 10 in. Blue, September.

ASTER, DWARF HARDY HORTICULTURAL VARIETIES

ASTILBE, HORTICULTURAL VARIETIES

AVALANCHE, 2 ft. White, June.

Fanal, 18 in. Intense red, July.

RHINELAND, 2 ft. Crimson, shaded salmon, June.

CALTHA palustris, Marshmanigold, 1-2 ft.

Gay bright yellow flowers in April or early May, bright green leaves. For moist locations.

CAMPANULA carpatica, CARPATHIAN BELLFLOWER, 6-12 in.

Bright, clear blue bell-shaped flowers in July-August. A rock garden gem.

CHAMAELIRIUM luteum, FAIRYWAND, 12-15 in.

A rare native with captivating white spikes in June.

CHRYSANTHEMUM arcticum, Arctic Chrysanthemum, 12-18 in.

Lovely white aster-like flowers on a compact plant in September-October.

C. sibiricum (koreanum), Korean Chrysanthemum, 2-4 ft.

This hardy species was introduced by Harlan P. Kelsey. Beautiful white flowers in October-December. One of the most effective garden flowers.

CHRYSANTHEMUM, GARDEN VARIETIES

Allegro. Very lovely shrimp-pink. October.

AVALANCHE. Large white flowers in late September.

BOKHARA. An outstanding new wine-red. Early October. .75 each, 3 for 2.00.

CARNIVAL. Exceptionally fine orange-bronze. Early October. 1.00 each, 3 for 2.50.

CHARLES NYE. Striking yellow pompom. Fine for cutting. October.

Ember. Glistening amber-red. October.

EUGENE WANDER. Golden-yellow. One of the best. Early September.

GLACIER. Pure bluish-white. Late September.

HARBINGER. Stunning yellow-bronze. Early September.

Huntsman. A fine scarlet-orange. October. 1.00 each, 3 for 2.50.

JANE KELSEY. Lustrous deep pink flowers on long stems. October-November. .75 each, 3 for 2.00.

LAVENDER LADY. Large true lavender flowers. Early October.

MAGNOLIA. Large double, yellow with pink overtones. October. 1.00 each, 3 for 2.50.

Nashua. Double yellow-bronze, dark center. August-September.

OLIVE LONGLAND. Soft peach-pink on good stems. Early October.

September Bronze. Fine round pompom, burnt orange. September.

SEPTEMBER CLOUD. Round white blooms. Late September.

WHITE WONDER. Splendid white pompom. Late September.

CHRYSANTHEMUM, Cushion Varieties

Bronze Cushion. Fine free-flowering variety.

HURLEY'S YELLOW SUPREME. Large golden-yellow flowers.

LITTLE BOB. Warm red, free flowering.

Major Cushion. The best pink cushion. Strong growing.

RED CUSHION. Rich red.

YELLOW CUSHION. Profuse yellow flowers.

WHITE CUSHION. White, occasionally lavender-tinged.

Prices of Hardy Garden and Wild Flowers, except as otherwise noted: \$.60 each 3 for \$1.50 \$5.00 per dozen

Heavy field grown clumps when available can be furnished at advanced prices.

CLINTONIA borealis, Yellow Beadlily, 12 in.

Splendid native groundcover. Glossy green leaves, greenish-yellow flowers, unusual blue berries. Good for shady places.

CONVALLARIA majalis, LILYOFTHEVALLEY, 7-8 in.

A universal favorite, for shady places. White, fragrant, bell-shaped flowers in May and June. .30 each, 2.70 per 10, 24.00 per 100.

C. majalis rosea, Pink Lilyofthevalley, 7-8 in.

The rare delicate pink variety. .75 each.

DELPHINIUM, GIANT PACIFIC HYBRIDS, 3-5 ft.

June-September. Double or semi-double, in varying shades of blue. 1.00 each, 3 for 2.50.

DICENTRA eximia, FRINGED BLEEDINGHEART, 12-15 in.

Delicate rose-colored flowers, all summer. Fern-like foliage. Very hardy, good in sun or shade. One of the best all around perennials.

D. eximia alba, White Fringed Bleedingheart, 15-18 in.

Rare white form palest pink in bud, almost pure white when fully developed. .75 each, 3 for 2.00, 10 for 6.00.

D. formosa alba, White Pacific Bleedingheart, 12-15 in.

Rare white variety of above. Lovely purest white nodding flowers. .75 each, 3 for 2.00, 10 for 6.00.

D. spectabilis, Common Bleedingheart, 2 ft.

Long graceful racemes of pink heart-shaped flowers. An old favorite. .75 each, 3 for 2.00, 10 for 6.00.

FERNS, HARDY NATIVE. See Page 49.

GYPSOPHILA repens, CREEPING GYPSOPHILA

Fine low trailing plant making a mat of tiny green leaves, with many small white flowers.

G. repens, Hv. Rosy

Delicate shell-pink form of above.

G. viscosa, Hv. Bristolfairy, 10-12 in.

Small double white flowers all summer. Fine for cutting.

HEMEROCALLIS, NAMED HORTICULTURAL VARIETIES

Bagdad. Orange throat, outer petals copper-red overlain with orange. 42 in. June-July. 1.25 each.

CABALLERO. Large flowered bicolor. Vermilion petals, golden yellow sepals and throat. 48 in. July. 1.25 each.

Dauntless. Pale, yellow-orange. Large wide overlapping petals. Very fine. 36 in. August. 1.00 each.

Dominion. Reddish-brown with yellow throat. Medium large flower. 3 ft. August. 2.00 each.

HESPERUS. Splendid yellow flowers in late summer. 2.00 each.

Honey Redhead. Brilliant rose-red with bright yellow border. 38 in. July and August. 3.00 each.

Hyperion. One of the very finest. Large waxy canary-yellow flowers. 48 in. July and August. 1.00 each.

Persian Princess. Deep velvety red with overflush of purple. 40 in. July-August. 2.00 each.

PINK CHARM. Lovely soft pink. August-September. 2.00 each.

MIXED HYBRID SEEDLINGS. Choice seedlings from selected seed of named varieties. Varied colors.

HEMEROCALLIS flava, LEMON DAYLILY, 3 ft.

Fragrant rich lemon-yellow flowers in June. A fine species.

H. fulva, TAWNY DAYLILY, 4 ft.

Dusty orange flowers in July-August. A robust grower, frequently naturalized along roadways.

HEPATICA americana (triloba), ROUNDLOBE HEPATICA, 4-6 in.

A charming little native, with blue, pale lavender or rarely white flowers in April or early May. A gem for the woodland or shady rock garden.

HEUCHERA sanguinea, Coralbells, 12-18 in.

Bright crimson flowers June-September. Clustered on a slender stalk.

H. sanguinea, Hv. Snowdrop, 12-18 in.

The white flowers form a pleasing contrast when planted with above species.

HOSTA japonica (lancifolia), Japanese Plaintainlily, 18-24 in.

Spikes of violet-blue flowers in July and August. Good for semi-shade.

H. japonica, Hv. Whiterim Japanese Plaintainlily, 18 in.

Larger, firmer blue flowers, also in July and August, and occasionally through September.

H. plantaginea, Fragrant Plaintainlily, 18-24 in.

With much larger bright green leaves, and fragrant large pure white flowers in August-October.

HOUSTONIA caerulea, Common Bluets, 2-3 in.

A dainty little wildflower, with pale blue flowers in April or May. Best in full sun in clay soil. .30 each, 2.70 per 10.

H. serpyllifolia, CREEPING BLUETS, 3-4 in.

Delicate bright blue and white flowers in April and May. The tiny evergreen leaves spread out to make a fine groundcover.

IRIS cristata, Crested Iris, 4 in.

An exquisite miniature native species from the high Southern Appalachians. Rich amethyst-blue flowers in April-May.

I. kaempferi, Japanese Iris. Named Horticultural Varieties.

These are all graceful blooms.

FASCINATION, 21/2 ft. Double-mauve pink, white veins, late June.

Purple and Gold, 3 ft. Double violet purple petals, gold throat, early July.

RED RIDING HOOD, $2\frac{1}{2}$ ft. Single, amaranth color, veined white, late June. Rose Anna, $2\frac{1}{2}$ ft. Double ivory-white, red veins.

I. pumila, DWARF IRIS

BRIDE. Large showy pure white.

Excelsa. Pale lemon-yellow.

Sambo. Dark purple, crimson veins.

I. siberica, Siberian Iris, 18-24 in.

Bright blue-purple in profusion on a neat plant in June.

I. siberica alba, White Siberian Iris, 18-24 in.

White flowers in June.

I. siberica, Named Varities

EMPEROR. Clear blue.

MORNING MAGIC.

PERIWINKLE. Pale blue.

LILIUM, canadense, Canada Lily, 3-4 ft.

Lovely native orange-red or golden yellow flowers, bell-shaped and gracefully drooping. June-July. Moist soil preferred.

L. grayi, Grays Lily, 3-4 ft.

Especially charming, with delicate drooping red flowers in June and July. A Kelsey introduction. .75 each.

L. michauxi (carolinianum), Carolina Lily, 3 ft.

Fragrant orange-scarlet flowers, spotted with purple-brown. July. A Kelsey introduction. .75 each.

L. regale, REGAL LILY, 3-31/2 ft.

Huge fragrant flowers, pure white inside, tinged with pink or rose-red outside. Needs sunny location and good loam. .75 each, 6.75 per 10.

L. speciosum rubrum, 3-4 ft.

Gay rosy-red flowers with white margins and deeper red spots. August-September. 1.25 each, 3 for 3.25.

L. superbum, Turkscap Lily, 5-7 ft.

Bright orange or reddish flowers in July-August. A splendid native species.

MONARDA didyma, Hv. Cambridge Scarlet, 2-4 ft.

An improved brilliant searlet Beebalm, with long-lasting flowers from July to September.

ORCHIDS, NATIVE SPECIES. See Page 50.

PAEONIA, PEONY — STANDARD VARITIES

Frances Willard. Strong stems surmounted by large flowers of lovely cream white. Late Midseason. 1.50.

Madame Jules Dessert. Large flowers with broad petals of creamy-white lighted with buff and salmon shades. Midseason. 1.50.

THERESE. Large soft shell-pink with lighter center. Vigorous and free-blooming, this is one of the most popular and satisfactory varieties which we have. Early midseason. 2.00.

Walter Faxon. Bright shell-pink with salmon shades. Almost the only really pink peony. Medium-sized blooms. Midseason. 1.50.

KARL ROSENFIELD. Brilliant dark crimson. Blooms freely and one of the best of this color. Midseason. 1.50.

Felix Crousse. Brilliant crimson with a deeper ruby-red center. Blooms freely and vigorously. A very satisfactory variety. Midseason to late. 1.00.

Festiva Maxima. Exceptionally large ivory-white flowers with a fleck of crimson in the center. Strong stems and foliage. Midseason. 1.00.

Venus (Kelway). Exquisite pointed buds. Delicate shell-pink and white. Strong stems and free blooming quality. Very fine. Midseason. 1.00.

JAPANESE TYPE PEONIES

Departing Sun. Broad petals of carmine-red. Stamens petal color, crested yellow. When seen in the light of setting sun, it fairly glows. 2.50.

Isani Gidui. Rounded petals of pure white surround a compact cushion of golden stamens. Lovely white and gold effect. 3.00.

You will enjoy a visit to our salesground in East Boxford, Mass.

We have available a choice selection of fine garden flowers, many of them established in pots for easy planting all thru the season.

THE FRAGRANT CAROLINA LILY
(Lilium michauxi)
Introduction of Harlan P. Kelsey

- PHLOX divaricata laphami, Lapham Sweetwilliam Phlox, 9-12 in.
 Soft blue flowers in May or early June make this a most desirable plant.
- P. frondosa, Hv. Vivid, 3-4 in.

 A fine low groundcover, with bright pink flowers in profusion in April or early May.
- P. subulata alba, White Moss Phlox, 6 in. Snow-white flowers in May.
- P. subulata, Hv. Appleblossom, 6 in.
 Appleblossom pink flowers on a neat low plant in May.
- P. subulata, Hv. Skyblue
 Low growing mat with clear bluish flowers.

RENOVATION OF GARDENS AND PLANTATIONS. Overgrown or run down gardens can often be improved immeasurably by readjustment, pruning, fertizilation, the addition of a few plants, etc. Let us help you make your garden more interesting and enjoyable.

Prices of Hardy Garden and Wild Flowers, except as otherwise noted: \$.60 each 3 for \$1.50 \$5.00 per dozen

Heavy field grown clumps when available can be furnished at advanced prices.

PHLOX, HARDY HORTICULTURAL VARIETIES

We list here a choice selection of fine garden Phlox. in the most popular colors.

Beacon, 2-3 ft. Brilliant cherry-red. Mid-season.

CHARLES CURTIS, brilliant crimson-red. Mid-season.

CHIEFTAN, deep rich oriental red.

Daily Sketch, late mid-season. Salmon pink, dark eye.

E. I. FARRINGTON, 2-3 ft. Clear pink with dark eye. Mid-season.

FLASH, early, tall, rich red in color.

Mary Louise, 21/2 ft. The best white. Large flowers July-August.

RUTH MAY, 2-21/2 ft. Very fine clear flesh pink. Late.

Salmon Glow. Salmon pink with lighter eve.

PLATYCODON grandiflorum, Balloonflower, 18-24 in.

A dependable garden plant, with deep blue showy flowers in July-September.

PODAPHYLLUM peltatum, Common Mayapple, 12-18 in.

curious native; large green leaves horizontally held and covering the white flowers in May, followed by a yellow edible fruit.

SANGUINARIA canadensis, BLOODROOT

Woodland species, with delicate white flowers in earliest spring.

S. canadensis, Hv. Multiplex, 6 in.

Rare double-flowered form. 1.25 each.

SHORTIA galacifolia, Oconeebells

Clumps 1.50 each, 9.00 per 10. See description, Page 14.

THERMOPSIS caroliniana, Carolina Thermopsis, 4-5 ft.

Long terminal spikes of bright yellow pea-shaped flowers in June or July. A fine contrast when planted with delphiniums.

THYMUS vulgaris, Common Thyme, 8-10 in.

Lilac or purplish-lilac flowers in May-June. A popular herb, the leaves used in soup, meat and fish sauces, and vegetable dishes.

TRILLIUM erectum, Purple Trillium, 12 in.

Reddish-purple flowers in May. Prefers moist shade.

T. grandiflorum, SNOW TRILLIUM, 12 in.

Large pure white flowers in early spring (late April to early May). For wild garden or semi-shaded spot rich in humus.

T. stylosum, Rose Trillium, 10-18 in.

Large rose-pink nodding flowers in early spring.

VIOLA cornuta, Hv. Jersey Gem, 7-9 in.

Large showy violet-blue flowers all summer. A very popular perennial.

Prices of Hardy Garden and Wild Flowers, except as otherwise noted: \$.60 each 3 for \$1.50 \$5.00 per dozen

Hardy Native Ferns

ADIANTUM pedatum, American Maidenhair, 1-2 ft.

Most graceful of all New England ferns with delicate lacy foliage. For moist spots in shady areas.

ATHYRIUM filixfemina, LADYFERN, 2-3 ft.

Always lacy and delicate, this fine fern grows well in sun or shade, but likes lots of leaf mold.

DENNSTAEDTIA punctilobula, Hayscentedfern, 1-2 ft.

For shade or partial shade. Good for holding dry banks, because of running roots.

DRYOPTERIS cristata, CRESTED WOODFERN, 1-2 ft.

Grand evergreen fern, for moist shady places. Dark green fronds.

D. marginalis, Leather Woodfern, 1½-3 ft.

One of the prettiest evergreen species. Leathery deep green fronds. Prefers rich shady moist slope.

D. noveboracensis, Newyork Woodfern, 12-18 in. Fine for shady woods.

D. spinulosa, Toothed Woodfern, 18 in.

Evergreen. Finely dissected fronds. For moist woods or shady banks.

ONOCLEA sensibilis, Sensitivefern, 1-3 ft.

For very moist locations, in open sunny areas.

OSMUNDA cinnamomea, CINNAMONFERN, 3-5 ft.

A robust and handsome species for sun or partial shade. Beautiful cinnamon colored stalks. .60 each, 5.40 per 10.

O. claytoniana, Interrupted Fern, 3 ft.

Native in open woods and moist fields. Will grow in dry, shady places. .60 each, 5.40 per 10.

O. regalis, ROYALFERN, 2-3 ft.

Light green. Can be grown in still water 2-3 inches deep. For sun or shade; thought by many to be our handsomest native fern. .60 each, 5.40 per 10.

POLYPODIUM vulgare, Common Polypody, 6-8 in.

One of the best evergreen species for the rock garden. Common in dry rocky woods, where it makes a lovely evergreen carpet over the ledges.

POLYSTICHUM acrostichoides. Christmasfern, 18-24 in.

Dark shining evergreen fronds. For rich soil and shady areas.

PTERETIS nodulosa. Ostrichfern, 2-4 ft.

Handsome dark green fronds forming a vase-shaped plant. For rich soil in partial shade.

PTERIDIUM aquilinum, Common Bracken, 3-4 ft.

Erect stout stalk with spreading branches. A hardy and durable fern.

Prices of Ferns, except as otherwise noted: \$.50 each 3 for \$1.25 \$4.25 per dozen

SHOWY LADYSLIPPER Cypripedium reginae

Native Orchids

CALOPOGON pulchellus, Grasspink Orchid, 12 in.

Violet-rose dainty flowers on slender stalks in June-August. A real treasure for wild garden or meadow.

CYPRIPEDIUM acaule, PINK LADYSLIPPER, 12-14 in.

Clear pink "slippers" with darker pink veins in May-June. Must have acid soil. Open pine woods offer an ideal location.

- C. parviflorum pubescens, Common Yellow Ladyslipper, 18-20 in.

 Large bright yellow fragrant flowers in May. Will do well in sun or shade, in a good garden soil.
- C. reginae, Showy Ladyslipper (spectabilis), 18-24 in.
 Gorgeous white flowers, with pink or rosy-purple overtones in May-June.
 Plant in moist peat or sphagnum moss, in partial shade. .75 each, 6.75 per 10.
- GOODYERA pubescens, Downy Rattlesnakeplantain, 8-12 in. Yellowish-white flowers in dense spikes, rising from dark green white-

striped basal leaves. July. A curious and interesting native of shady hillsides.

HABENARIA ciliaris, Yellow Fringeorchid, 12-24 in.

A slender orchid with showy orange-yellow flowers in July or August. Best in moist meadow or bog. 1.00 each, 3 for 2.50.

ORCHIS spectabilis, Showy Orchid, 6-12 in.

A native treasure with rose-lilac flowers in April and May. For rich soil in the wild garden. 1.00 each, 3 for 2.50.

Orchids are \$.60 each, 3 for \$1.50, \$5.00 per dozen except as otherwise noted.

Lists of Plants for Special Environments and Purposes

Berry Bearing Plants

Plantings for Birds. Birds add beauty and song to the gardens, and are of greatest value in curbing insect damage. Every garden should include plants that provide natural bird food and cover. We know what these plants are and will gladly help you plan their proper use. This list includes only berrybearing plants. It should be realized that most of the Pines, Firs, Spruces and other evergreens attract certain seed-eating birds, especially in fall and winter.

Amelanchier laevis, purple or nearly Amelanchier oblongifolia, black Aronia arbutifolia, red Aronia melanocarpa, black Arctostaphyllos uvaursi, bright red Berberis koreana, red Berberis thunbergi, red Berberis thun. atropurpurea, red Chaenomeles lagenaria, green Chaenomeles lagenaria, Hv. Cardinalis, green Cornus florida, scarlet Cornus florida rubra, scarlet Cornus kousa chinensis, red Cornus mas, scarlet Cornus racemosa, white Cornus stolonifera, white Cotoneaster adpressa praecox, red Cotoneaster dielsiana, scarlet Cotoneaster divaricata, red Cotoneaster horizontalis, red Cotoneaster microphylla, scarlet Crataegus arnoldiana, crimson Crataegus crusgalli, bright red Crataegus phaenopyrum, scarlet Elaeagnus angustifolia, yellow with silver scales Euonymus alatus, orange-red

Euonymus alatus, orange-red Euonymus alatus, Hv. Dwarf, orange-red Euonymus latifolius, bright red and

Ilex crenata, Hv. Convexleaf, black
Ilex glabra, black
Ilex serrata, red
Ilex verticillata, bright red
Juniperus chinensis sargenti, blue
Juniperus communis depressa, blue
Juniperus communis suecica, blue
Juniperus horizontalis, light blue
Juniperus horizontalis douglasi, blue

Euonymus yedoensis, pinkish-purple

Juniperus horizontalis plumosa, blue Juniperus virginiana, blue

Ligustrum amurense, black Ligustrum ibolium, black Ligustrum obtusifolium regelianum, black to blue-black Lonicera korolkowi zabeli, bright red Lonicera, Hv. Red Tatarian, red Lonicera, Hv. Rosy Tatarian, light red Lonicera, Hv. White Tatarian, red Malus atrosanguinea, red Malus floribunda, yellow Malus, Hv. Vines

Akebia quinata, purple-violet Celastrus orb. punctata, orange and red Euonymus fortunei vegetus, orange Hedera helix, Hv. Baltic, black Lonicera jap. halliana, black Parthenocissus tricuspidata, blue-black

Taxus cuspidata (upright), red Taxus cuspidata nana, red

Vaccinium vitisidaea minus, red

Viburnum lentago, blue-black

Vaccinium corymbosum, blue-black

Vaccinium vitisidaea majus, dark-red

Taxus media, Hv. Hicks, red

Viburnum carlesi, black

Viburnum dentatum, blue

Viburnum sargenti, scarlet

Viburnum trilobum, scarlet

Plants for Moist Soils

Many plants will not stand a location that is quite moist a great deal of the time. These varieties, however, seem to enjoy considerable moisture if proper drainage is provided. In many cases it increases their growth and gives them finer foliage.

Care must be used in choosing varieties that will best suit your particular location and we are prepared to help you plan correctly.

Acer rubrum
Amelanchier in variety
Aronia, in variety
Azalea arborescens
Azalea calendulacea
Azalea nudiflora
Azalea vaseyi
Azalea viscosa
Calluna vulgaris
Calycanthus floridus
Chamaedaphne calyculata
Clethra alnifolia
Clethra alnifolia rosea
Cornus racemosa
Cornus sanguinea

Cornus stolonifera
Ilex glabra
Ilex verticillata
Kalmia angustifolia
Kalmia latifolia
Leucothoe catesbaci
Lyonia mariana
Quercus palustris
Rhododendron maximum
Salix in variety
Thuja in variety
Ulmus americana
Vaccinium corymbosum
Viburnum dentatum

Plants for Dry Soils

Often it is extremely difficult to find plants that will thrive in soil that is quite dry. These plants are among the best for such situations and when established seem to enjoy well-drained and rather dry soil, although some will do well under moist soil conditions and may also be found in that list.

Acanthopanax sieboldianus
Arctostaphylos uvaursi
Berberis thunbergi, and varieties
Betula populifolia
Caragana arborescens
Chaenomeles lagenaria
Cornus racemosa
Diervilla sessilifolia
Eleagnus angustifolia
Juniperus, in variety
Kolkwitzia amabilis
Ligustrum amurense
Ligustrum ibolium
Lonicera japonica halliana

Picea pungens
Pinus mugo mughus
Pinus resinosa
Pinus strobus
Populus, in variety
Prunus maritima
Rhamnus cathartica
Rhamnus davurica
Rhus aromatica
Robinia kelseyi
Rosa rugosa
Symphoricarpos albus
Viburnum lentago

The Flowering Crabapples have few rivals among gorgeous Spring flowering trees and shrubs. At the Arnold Arboretum one of the most important events of the year is the blooming of the Crabapples, followed by the showy fruit in Autumn. Most varieties are of greatest value as feed in winter for Pheasants, Grouse and other birds. They are of easy culture, and whether planted singly or in masses, give remarkable and quick results. As soon as the ground can be worked in Spring is an ideal time for planting, and again in Fall after foliage is well ripened. Give rich soil and mulch heavily. Use all the water the soil will take in planting.

See Page 19 for descriptions and prices.

Rhododendrons flourishing in a properly prepared acid soil.

Shrubs for Acid Soils

While most plants are tolerant of the acid soils of our region, the following really require acid soil to flourish.

Amelanchier, in variety
Azaleas, in variety
Calluna, in variety
Cytisus scoparius
Enkianthus campanulatus
Erica carnea
Ilex, in variety
Juniperus communis, and varieties

Kalmia latifolia
Leiophyllum buxifolium prostratum
Leucothoe catesbaei
Lyonia mariana
Pieris, in variety
Rhododendron, in variety
Vaccinium, in variety
Xanthorhiza simplicissima

Fruit Trees and Small Fruits are listed on Pages 38 and 39. Grow your own fruit for pleasure and profit. Most fruit trees are highly decorative as well.

Plants for City Conditions

Poor soil, insufficient light and moisture, smoke, soot and gas fumes are a handicap to city plantings. The plants in this list are more resistant than the average to such conditions and can therefore be used with better results in city plantings.

Shrubs and Vines

Acanthopanax sieboldianus Aristolochia durior Aronia arbutifolia Berberis thunbergi Caragana arborescens Celastrus orbiculata punctata Clematis paniculata Cornus, shrub forms Cotoneaster, in variety Euonymus, in variety Forsythia, in variety Hamamelis, in variety Hedera helix baltica Hibiscus syriacus Hydrangea, in variety Ilex crenata Ilex glabra Juniperus chinensis pfitzeriana Kerria, in variety Leucothoe catesbaei Ligustrum, in variety Lonicera, in variety Pachysandra terminalis Parthenocissus tricuspidata Philadelphus coronarius Pieris, in variety

Plants Suitable for Rock Gardens

Every Rock Garden has problems of its own. No list of this nature can in any way be complete — it can merely suggest a few of the varieties that are being successfully used in the finest American Rock Gardens. Herbaceous perennials are not included, as use of the various kinds depends on the type and size of the rock garden. We will gladly make recommendations of perennials to use for given types of rock gardens.

Arctostaphyllos uvaursi Azalea obtusa Azalea yedoensis poukhanensis Buxus microphylla koreana Calluna, in variety Cotoneaster adpressa praecox Cotoneaster horizontalis Cotoneaster microphylla Daphne cneorum Epigaea repens Erica carnea Forsythia, Hv. Plants for Autumn Coloring

The plants in this list are especially valuable for the great variety of their foliage colors in autumn. This autumn coloring gives added value in the garden in the season when flowers are few and far between. New England is famous for its autumn coloring and many of the plants listed below have contributed to that fame, especially Red Maple (Acer rubrum), Sugar Maple (Acer saccharum), Birches (Betula in var.), Dogwood (Cornus in var.), Blueberry (Vaccinium), and the Oaks (Quercus).

Acer platanoides, yellow Acer platanoides, Hv. Crimson King, purple red Acer rubrum, red, rarely yellow Acer saccharum, scarlet-orange or yellow Amelanchier laevis, purplish-red Amelanchier oblongifolia, yellow to orange Arctostaphylos uvaursi, red-purple Aronia arbutifolia, red Aronia melanocarpa, red Azalea arborescens, red Azalea obtusa, reddish-purple Azalea obtusa kaempferi, crimson Azalea schlippenbachi, yellow, orange or Azalea vaseyi, red Azalea yedoensis poukhanensis, reddishpurple Berberis koreana, deep red Berberis thunbergi, brilliant red Berberis thunbergi atropurpurea, purple-red Betula papyrifera, yellow Betula pendula, yellow Betula pendula gracilis, yellow Betula populifolia, yellow Calluna vulgaris, Hv. Cuprea, bronze Calycanthus floridus, yellowish Castanea mollissima, yellow to bronze Cladrastis lutea, yellow Clethra alnifolia, red Clethra alnifolia rosea, yellow to orange Cornus florida, bright red Cornus florida rubra, red to reddish purple Cornus kousa chinensis, scarlet Cornus mas, red Cornus racemosa, purplish Cornus stolonifera, reddish Cotoneaster dielsiana, reddish

Cotoneaster divaricata, dull red Cotoneaster horizontalis, red Crataegus arnoldiana, red Crataegus crusgalli, orange and scarlet Crataegus phaenopyrum, bright red Diervilla sessilifolia, reddish Enkianthus campanulatus, scarlet Euonymus alatus, brilliant red Euonymus alatus, Hv. We have many rare and unusual plants in quantities too small to list in this general catalog. Your inquiries for items difficult to obtain are always welcome.

RENOVATION OF GARDENS AND PLANTATIONS. Overgrown or run down gardens can often be improved immeasurably by readjustment, pruning, fertilization, the addition of a few plants, etc. Let us help you make your garden more interesting and enjoyable.

Groundcover Plants

A list such as this cannot hope to cover all kinds of plants that may be used as groundcovers. In large landscape projects such plants as Mountainlaurel Kalmia (Kalmia latifolia), many varieties of medium to tall growing shrubs and the like might be used for broad groundcover effects.

Our intention here is not to cover this kind of use, but to indicate the plants that are useful as groundcovers in the commonly accepted sense of the word. In general, therefore, the list is limited to plants which rarely exceed three feet in height, even in maturity. There are some exceptions, in the case of such plants as Dwarf Japanese Yew (Taxus cuspidata nana), which, although eventually it would normally reach five or six feet in height, can be maintained almost indefinitely by pruning at a height of two feet or less.

For your convenience in choosing the kind of groundcover best suited for your purpose, we have indicated the approximate normal height of the plants listed as follows.

Where two letters occur it indicates a variable species, some individuals of which are lower than others.

P — prostrate or trailing

S — less than one foot tall

Evergreens

P Juniperus chinensis sargenti

SM Juniperus communis depressa
P Juniperus horizontalis

P Juniperus horizontalis douglasi s Juniperus horizontalis plumosa

м Juniperus sabina

SL Pinus mugo mughus
ML Taxus cuspidata nana

Deciduous Shrubs

м Azalea obtusa

L Azalea yedoensis poukhanensis

M Forsythia, Hv. Arnold Dwarf

L Rosa rugosa

ML Xanthorhiza simplicissima

Vines

м Celastrus orbiculata punctata

P Hedera helix, Hv. Baltic Ivy

PS Lonicera japonica halliana

M — one to two feet tall

L - over two feet tall

Broadleaf Evergreens

P Arctostaphyllos uvaursi

M Calluna, in variety

s Calluna vulgaris nana

L Chamaedaphne (for moist places)

P Cotoneaster adpressa praecox

s Cotoneaster horizontalis

м Cotoneaster microphylla

s Daphne cneorum

s Erica carnea

sm Euonymus fortunei, in variety

s Galax aphylla

ML Kalmia angustifolia

L Leucothoe catesbaei

r Mitchella repens

s Pachistima canbyi

s Pachysandra terminalis

L Pieris floribunda

L Rhododendron laetivirens

P Shortia galacifolia

PS Vaccinium vitisidaea majus

P Vaccinium vitisidaea minus

P Vinca minor

P Vinca minor, Bowles variety

Most plantings are too crowded for permanently good results. Adequate spacing of trees and shrubs, with proper use of groundcover material, will insure permanent satisfaction, given proper conditions of soil and exposure. We will gladly recommend the best groundcovers for specific locations.

Spreading Cotoneaster

With pink flowers in June and bright red fruit in autumn, this is one of the finest of this relatively new group.

It is a broad shrub, reaching 6-8 ft. in height.

2-3 ft. plants

\$3.00 each

Plants for Seashore Conditions

In planting nursery stock near the shore it is advisable to select plants that will withstand the attacks of ocean winds and salt spray. Only comparatively resistant kinds are listed here, and even these will sometimes suffer in the most severe seashore exposures. Many others will do well near the seashore with a little more protection.

Acer platanoides, in variety Amelanchier, in variety Arctostaphylos uvaursi Aronia arbutifolia Berberis, in variety Betula, in variety Calluna, in variety Celastrus orbiculata puncata Clematis paniculata Clethra, in variety Cornus, shrub forms Cotoneaster, in variety Crataegus, in variety Cytisus scoparius Eleagnus angustifolia Erica carnea Euonymus alatus Euonymus alatus, Hv. Dwarf Forsythia, in variety Hibiscus syriacus, in variety Hydrangea, in variety Hydrangea petiolaris Ilex glabra Juniperus, in variety Ligustrum, in variety Lonicera japonica halliana Lonicera sempervirens Lonicera tatarica, in variety Malus, in variety Picea asperata

Picea engelmanni Picea glauca Picea pungens Picea pungens glauca Pinus mugo mughus Pinus nigra Pinus sylvestris Pinus thunbergi Populus, in variety Prunus, in variety Rhamnus, in variety Rhododendron laetivirens Robinia kelseyi Rosa eglanteria Rosa rugosa Rosa rugosa alba Salix, in variety Sorbus, in variety Spiraea, in variety Syringa, in variety Taxus, in variety Tilia cordata Ulmus americana Ulmus pumila Vaccinium, in variety Viburnum carlesi Viburnum dentatum Weigela florida Wistaria sinensis Wistaria sinensis alba

Plants for Shady Locations

Not many plants require shade, but some will stand it in varying degrees. Included here are some of both groups. It should be remembered that most trees and shrubs will flower and fruit better in the full sunlight if soil conditions are right.

Acanthopanax sieboldianus Amelanchier, in variety Aronia, in variety Azalea, in variety Berberis thunbergi Buxus microphylla koreana Celastrus orbiculata punctata Clethra alnifolia Clethra alnifolia rosea Cornus florida Cornus, shrub form Diervilla sessilifolia Euonymus fortunei, and varieties Forsythia, in variety Hamamelis, in variety Hydrangea petiolaris Ilex glabra Ilex serrata Ilex verticillata Kalmia latifolia Leucothoe catesbaei Ligustrum, in variety

Lonicera, in variety Lyonia mariana Mitchella repens Pachistima canbvi Pachysandra terminalis Philadelphus coronarius Photinia villosa Pieris floribunda Rhamnus, in variety Rhododendron, in variety Symphoricarpos, in variety Taxus, in variety Thuja, in variety Tsuga canadensis Tsuga caroliniana Vaccinium, in variety Viburnum dentatum Viburnum lentago Viburnum trilobum Vinca minor Vinca minor, Bowles variety Xanthorhiza simplicissima

Terms and Conditions of Sale

Terms. Cash with order or satisfactory reference from unknown customers. Established credit accounts are due in 30 days from date of invoice. C.O.D. orders must be accompanied by one-third of the amount. Overdue accounts are subject to interest at 6 per cent.

Shipping Instructions should accompany order. State whether Freight, Express, Parcel Post or Truck, and give exact destination. Otherwise, we use our best judgment but assume no responsibility thereby. We deliver by truck all over New England and nearby states at reasonable rates. All goods are at purchaser's risk after delivery to forwarding companies in good condition. Claims for damage while in transit must be made against the delivery company.

Claims for errors must be made in writing within 5 days after receipt of goods. Any mistake or fault on our part will be gladly rectified. Stock delivered as per order and in good condition is not returnable.

Nomenclature. The 1942 edition of "Standardized Plant Names" published by the American Joint Committee on Horticultural Nomenclature is authority for names used in this catalog.

Prices in this catalog cancel all previous lists and quotations and are subject to change without notice. Retail prices include packing, except for bulky or unusual shaped plants or when special methods are requested; prices are f.o.b. East Boxford, Massachusetts. No charge for local truck delivery on our regular delivery routes and days.

All orders are accepted subject to prior sale and to condition of stock at delivery date, under the following terms and conditions:

Grade. We supply a standard grade of stock. Unusual specimen material or plants specially selected by customers at the nursery will be charged for according to value, irrespective of the catalog list price.

We warrant all plants to be of true name, full count, up to grade, and in good condition when shipped.

See Kelsey's guarantee on Page 1.

To Our Customers:

The art of growing fine plants cannot be acquired overnight.

Since 1885, from a small beginning by Harlan P. Kelsey in the high mountains of North Carolina, we have followed the aims of high quality and fair treatment to all customers.

Kelsey's Guarantee (on Page 1) is not just another trick sales appeal. It is a pledge of our faith in the quality of our product, and an assurance of satisfaction to our customers.

We will always give our best efforts to please you. Please help us by careful planting and thoughtful aftercare. Plants are living things and must be treated as such.

Please read the planting instructions on Page 1. And ask for your copy of Kelsey's "How to Plant" booklet.

We stand ready at all times to help you with your gardening problems.
